MEMORIAL PROFILE

Ashley Moe was a 2017 graduate of Hanson High School and had attended MTI for Radiology Technologist for one semester prior to suffering from some short-term memory issues and Post-Concussion Syndrome that forced her to quit school. She was registered at MinnWest for Fall 2019 to continue her dreams of becoming a Radiologic Technologist; however, she finished her mission here on Earth on February 26, 2019 when she was killed in a 1-vehicle rollover accident on her way to work. **Her family would like to honor her by gifting 2-\$500 scholarships to two recipients of Hanson High School Graduating Class and 2-\$250 scholarships to two area high school seniors who Ashley left an impact on.** These scholarships are open to ALL Hanson High School and area seniors planning to pursue higher education (whether university or technical college). The scholarship will be paid to the university or technical school for the second semester following proof of their first semester attendance.

****Scholarship will double if recipient has chosen Rad Tech at either MTC or MinnWest****

Points given for activities, church & community service and/or civic activities that Ashley was involved in. Even though GPA scores and/or ACT scores are important to many, those scores are not being considered in this scholarship as Ashley did not feel that is what success is valued on...it is the student's determination to work hard and willingness to give 110% in everything they do! Ashley lived her life faithfully always believing *G>^v (God is Greater Than Our Highs and Our Lows)* and "I AM ENOUGH" No matter who the scholarship recipients are, we ask that each of you live your life for the glory of God in all of your future endeavors! YOU ARE ENOUGH!!!
